Probability of paved roads with and without performance contracts

Scenario	Probability of paved roads	Standard deviation	95% confidence interval
With performance contract	46 percent	4 percent	(38, 54)
Without performance contract	57 percent	4 percent	(50, 66)

Per capita investment with and without performance contracts

Scenario	Per capita investment	Standard deviation	95% confidence interval
With performance contract	88 yuan	18 yuan	(51, 124)
Without performance contract	57 yuan	17 yuan	(21, 90)

Percentage of usable classrooms with and without performance contracts

Scenario	Percentage of usable classrooms	Standard deviation	95% confidence interval
With performance contract	94 percent	3 percent	(89, 99)
Without performance contract	87 percent	2 percent	(83, 92)

Per capita investment with and without temple manager

Scenario	Per capita investment	Standard deviation	95% confidence interval
With temple manager	124 yuan	39 yuan	(44, 203)
Without temple manager	63 yuan	14 yuan	(34, 90)

Percentage of usable classrooms with and without temple manager

Scenario	Percentage of usable classrooms	Standard deviation	95% confidence interval
With temple manager	100 percent	5 percent	(94, 100)
Without temple manager	88 percent	2 percent	(84, 92)

Probability of running water with and without temple manager

Scenario	Probability of running water	Standard deviation	95% confidence interval
With temple manager	61 percent	8 percent	(47, 77)
Without temple manager	46 percent	3 percent	(41, 51)

Per capita investment with and without village-wide lineage institutions

Scenario	Per capita investment	Standard deviation	95% confidence interval

| With village-wide lineage institutions | 153 yuan | 52 yuan | (52, 256) |
| Without village-wide lineage institutions | 71 yuan | 14 yuan | (45, 99) |

Probability of paved roads with and without village-wide lineage institutions

Scenario	Probability of paved roads	Standard deviation	95% confidence interval
With village-wide lineage institutions	84 percent	11 percent	(63, 100)
Without village-wide lineage institutions	50 percent	3 percent	(44, 56)

Probability of running water with and without village-wide lineage institutions

Scenario	Probability of running water	Standard deviation	95% confidence interval
With village-wide lineage institutions	55 percent	9 percent	(36, 74)
Without village-wide lineage institutions	48 percent	3 percent	(43, 53)
